Terms of use FANselect

October 2020

FANselect conditions of use

§ 1. LICENCE FOR USE

The licence for use is only valid for registered users who are not private individuals. Furthermore, the licence for use is for a specific purpose. Thus, no application may be performed beyond the agreed purpose (intended use).

For all cases of non-compliance, a contractual penalty in the amount of 30,000 euros is due, which will be offset against further claims asserted.

The user may use the drawings, software and data provided by ZIEHL-ABEGG for private and business purposes free of charge. ZIEHL-ABEGG grants the user an unlimited, non-exclusive and non-transferable right to use the drawings, software and data to the extent that corresponds to the purpose intended by ZIEHL-ABEGG in making them available and ceding them.

2. DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS

Neither drawings, software or data may be sold, rented or otherwise ceded by the user to third parties. Unless otherwise permitted by binding legal regulations, the user may not modify, reverse engineer, decompile or disassemble the software. Commercial use or distribution of drawings, software and data - in any form - requires written approval from ZIEHL-ABEGG. The user may create a backup copy of the

software if this is required for the backup of future use based on these conditions of use.

3. COPYRIGHT

ZIEHL-ABEGG holds all the property rights – especially copyrights – to the drawings, data and software (including but not restricted to any illustrations, photographs, animations, videos, audio, music, text and “applets” contained in the software product), the printed supplementary material and all copies of the software product. The drawings, software and data are protected by copyright law as well as by other laws and agreements on intellectual property. The user shall observe these rights, and especially shall not remove alphanumeric identifiers, trademarks and copyright notes from the software as well as from drawings and data. Sections 69a ff. of the German Copyright Law otherwise remain unaffected.

Above and beyond the expressly granted right to use here, the user is not granted any further rights of any kind, especially commercial property rights such as patents, utility models or brands nor is ZIEHL-ABEGG obliged to grant such rights.

4. PRODUCT SUPPORT

ZIEHL-ABEGG provides product support via e-mail and phone. There is, however, no entitlement to product support from ZIEHL-ABEGG.

5. UPDATING

These conditions of use also apply to any updates provided by ZIEHL-ABEGG. However, Ziehl-Abegg is not obliged to provide the user with updates.

6. LIABILITY FOR LEGAL AND MATERIAL DEFECTS/OTHER LIABILITY

Ziehl-Abegg accepts no liability for material and legal defects in drawings and data as well as software, particularly for its correctness, absence of errors, freedom from property rights and copyrights of third parties, completeness and/or usability, except in the event of deliberate action or fraudulent intent.

Any other liability of ZIEHL-ABEGG is excluded unless it is mandatorily liable, for example, in accordance with the Product Liability Act, due to intent, injury to life, limb or health, due to provision of a quality guarantee, malicious concealment of a defect or violation of important contractual obligations.

However, damage compensation for violation of important contractual obligations shall be limited to the foreseeable damage typical for the contract unless intent or gross negligence is involved. Liability for indirect, incidental and consequential damages as well as for damage claims for lost profits – insofar as legally permissible – is totally excluded.

7. DATA PROTECTION

I agree that ZIEHL-ABEGG WILL STORE my data for internal purposes and inform me about new developments in the future. Data will not be passed on to third parties. Further information on data protection can be found at www.ziehl-abegg.com/de/de/datenschutz/

The information and data contained in the selection software are produced to the best of our knowledge and do not release you from the obligation to check the actual suitability of the listed/suggested products for your intended application.

The Customer is obliged to provide the Supplier with general information about its intended purpose, installation type, operating conditions and other conditions to be taken into account insofar as the order does not refer to information in our catalogues and the selection software.

ZIEHL-ABEGG SE reserves the right to change dimensions and designs that serve the purposes of technical progress.

We attach a lot of importance to personal contact with our customers. That is why we are glad to offer you individual consultation globally. Extensive individual consultation is our strength and cannot be replaced by this selection software. Your current direct contact partner can always be found at ziehl-abegg.com

This selection software is intended to give you a first impression of our innovative products and their wide range of applications. For this reason, the content shown makes no claim to be complete and is only meant to be initial non-binding general information.

9. LEGAL INFORMATION

These documents contain information for your guidance. No guarantee is provided with regard to the accuracy of any information and no legal claims may be derived from this.
